# RUSSIAN ACTIVITIES IN WASHINGTON, D. C.
# QUARTERLY INTELLIGENCE SUMMARY

## Approximate Population

The results of the 1940 census have not yet been sufficiently tabulated to show a breakdown in the District of Columbia as to nationalistic groups. However, it has been ascertained that the census of 1930 reflected that at that time there resided in the District 4,735 white individuals over the age of 21 years who were born in Russia. Approximately 1300 of this group were at that time naturalized citizens.

Information obtained by this office indicates that of this number not in excess of 100 families are of the so called White Russian Group. Most of the remainder are considered to be of the Jewish race. It has been impossible to estimate whether the Russian population in the District has increased since 1930 census although it is possible that unsettled conditions in Europe during the past decade may have resulted in increased migration to this country. It should be pointed out, however, that due to the fact that the territory of this field office does not comprise any agricultural areas or any heavy industrial areas, that an increase in the migration of Russian nationals to this country would not necessarily be reflected in this district.

## Newspapers and Publications

The Russian language newspaper "New Russian World" is a daily publication, the president being V. SHIMKIN and M. WEINBAUM, editor. This newspaper is published at 413 East ~~14th Street~~, New York City, telephone number Gramercy 7-5500. The publishers of this paper are said to be Jewish and it is understood that the paper has a fairly good circulation among Russians in the District. The editorial policy of this paper has been described as conservative. Informants have stated that in the early stages of the present war, some articles appearing in the "New Russian World" pointed out the possibility of an overthrow of the Soviet government and the restoration

COPIES DESTROYED 4-15-58
H 34
100-7826-54-1

to power of individuals descended from noble families and persons having influence under the old Czarist regime in Russia. However, it appears that the policy of this paper has now changed to its present one of convervatism.

The Russian language daily newspaper "New World," (not to be confused with "New Russian World") is said to be published in New York City but the extent of its circulation in the District is not known, nor is it known who are the editors and publishers. This paper has been described as being communistic in tendency, and informants have charged, without being able to produce facts to substantiate their assertions, that it is financed from Moscow. It has been described as following the policy similar to that of the "Daily Worker." It has also been stated another paper entitled "Rossia" is likewise published in New York City by an individual named RIBAKOFF. This paper is said to adhere to the policy that the interests of the Russian people would be best advanced by a German victory and the overthrow of the Soviet regime.

No Russian theaters, radio stations, professional or amateur, travel agencies, steamship lines, language schools, consumers organizations, or Russian owned or controlled industries, commercial concerns, banks, or insurance companies are known to exist within the District of Columbia with the exception of small business establishments of no consequence. Most of the latter are considered to be clothing stores, groceries, and delicatessens operated by Russian Jews of which there are many in the District.

## Diplomatic Agencies

The Russian Embassy is, of course, located in the District of Columbia but informants have advised that they know of no instances where any attempt has been made by Soviet officials either directly or indirectly connected with the Embassy making any attempts to influence the attitude or actions of any Russian people living in Washington. One informant has advised that several years ago he met an official representative of the Soviet government who was in this country for the purpose of learning details of the housing program which at that time was being expanded. When he identified himself to this individual as a Russian and sought to engage him in con-

NW 38037 DocId:32699413 Page 4

versation in the Russian language relative to conditions in Moscow, he stated that the Soviet official refused to be drawn out into conversation and would have nothing whatsoever to do with him.

There is also located in the District of Columbia a branch office of the Amtorg Trading Corporation located at 1115 16th Street, N. W., and it has been ascertained that the principal offices of this concern will soon be moved from New York City and will be established in the Defense Building at 1026 17th Street, N. W. Informants of this field office have denied any knowledge of any activity on the part of the Amtorg Trading Corporation other than their ostensible business of buying merchandise to be shipped to Russia.

## Religious Organizations

During 1931 there existed in the District of Columbia a church of the Greek Orthodox faith called the Church of St. Alexander which was located at 1317 12th Street, N. W. Reverend VICHISLEY GINDLIN was the pastor of this church at that time. This church was organized to serve Slavic people of the Greek Orthodox faith. There was also in existence the Church of St. Nicholas, also of the Greek Orthodox faith which was and still is located at 1768 Church Street, N. W. The Gentile Russian element in the District of Columbia, however, proved to be too small to support more than one church and as a result the Church of St. Alexander ceased to exist and it is understood that Reverend GINDLIN has moved to New York City. The Church of St. Nicholas, however, still functions at the same address. Father PAUL LUTOV is serving it and resides at 1453 Belmont Street, N. W.

This church exists as a corporate entity. There is also in existence the Nikolaevskee Sestrichestvo or St. Nicholas Sisterhood, which is a women's organization affiliated with the Church of St. Nicholas. The object of this group is to promote, carry on, and to help the needy and to give support to its members. The incorporators of this group were: Mrs. NATALIA EMELIANOFF, TAISIA STADUICLIENSLO, EUGENIA LESLIE, and ELEDEHIA F. PORTIANE. This group is said to be not very active at the present time.

NW 38037 DocId:32699413 Page 5

## Clubs and Organizations

So far as has been ascertained, at the present date, there are no Russian clubs or societies with the exception of those connected with the church which presently exist in the District. At one time, there was in existence a group known as the Society of Russian War Veterans. This organization came into being in 1932 and its purpose was to aid indigent Russian veterans. It should be noted at this point that the majority of the Gentile Russians in Washington are former Russian Army officers who came to this country during or shortly after the World War. Many of them are presently in better than average financial circumstances, many being employed in various Government departments. Presently, it is understood that the Society of Russian War Veterans no longer exists as a formal organization.

Colonel GEORGE D. LESLIE, who is employed in the War Department and who resides at 1613 30th Street, N. W., was the head of this organization in the District and presently retains its records. This society never had any regular meeting place but met in the homes of its various members. From time to time it would stage a ball or some other social function for the purpose of raising funds to aid Russian veterans in the United States or Russian war orphans in France. General N. ELSHIN, who resides in Seattle, Washington, is said to have been the national commander of this organization during the time that it was active.

A great many of the Gentile Russians in the District of Columbia are also members of the Military Order of the World War. This is a well known organization for all officers who served with the Allies during the late World War and it is said that General JOHN J. PERSHING is honorary commander.

## Youth Organizations

The only group which might be considered a youth organization in the District of Columbia is called the "R Society of Washington." This group is a young people's organ-

NW 38037 DocId:32699413 Page 6

ization of the Russian Orthodox church and its purposes are religious and social. Mrs. EUGENIA LESLIE, wife of Colonel LESLIE, referred to previously, appears to direct the activities of this organization as a part of her religious activity.

Degree of Loyalty to the United States

Informants have placed individuals of Russian birth residing in the United States in the following three classifications:

1. The so-called "Old Colony."

This group is composed of Russians who migrated to the United States prior to the World War. They have been described as being largely of meager education and have quite clearly been in this country for many years. Informants state that they have probably lost all of their ties in Russia due to the passage of time and the changing world conditions. They are considered to be loyal to the United States. This group is thought to comprise the laboring classes.

2. Russian officers and other so-called White Russians.

Some of these individuals were sent here during the World War either connected with the Russian Embassy or with various Russian purchasing missions. This group also includes White Russians who migrated to this country during the revolution. These have been referred to as people who never suffered any personal hardships at the hands of the Soviet government and consequently do not have the high feeling of patriotism toward this country that later refugees feel. Most informants have described this group as being entirely loyal to the United States although one informant has advised that among some individuals of this group there seems to exist a belief that a German victory over Russia would bring about the overthrow of the Soviet government and would result in their being able to return to Russia, recover property confiscated from them during the revolution, and to return to places of authority and prominence.

NW 38037 DocId:32699413 Page 7

However, this informant stated that he did not believe this was a widespread feeling among this group and felt that as a whole they could be considered loyal to the United States.

3. Refugees from the revolution.

These individuals comprising this group are said to be people who have suffered great hardships under the Soviet government and who were forced to flee to this country to escape further mistreatment. They have been described by informants as being appreciative of the freedom and protection they have in this country and as being highly loyal to the United States.

~~CONFIDENTIAL~~

SYNOPSIS OF FACTS: LAWRENCE TODD registered with State Department as Washington representative of Tass News Agency. Also one of subjects of Congressional Investigation in 1934 and was exonerated of charges that he had taken part in a discussion of the overthrow of the United States Government. Alleged to be member of American Civil Liberties Union. Bank account analyzed, credit information and description set out. SERGE RUBINSTEIN, subject of Washington Field Office file, Registration Act, New York origin. Madame YVONNE ROUZ DE LOS LLENOS reported to be from Buenos Aires, Argentina and to be negotiating for sale of hides and canned beef to Russian Government. Said to be related to Argentine official circles; associated with Dr. SANTIAGO HECHART of Buenos Aires. U. K. VUKMANIC from McKeesport, Pennsylvania and formerly publicity Director of Pennsylvania Turnpike, worked on hydro-electric project in Russia several years ago and speaks Russian fluently. Reported to hold reserve commission as intelligence officer and to be seeking government employment. Check made at Willard Hotel of telephone calls of RAY FOREST.

U.S. GOVERNMENT PRINTING OFFICE : 1941 — O - 281888

The following investigation is predicated upon information received from a highly and strictly confidential source which has indicated that over a period of the last six months frequent contacts have been made between

FOIA(b)(3) - 50 USC 3024(i)(1) - Intelligence Sources and Methods
FOIA(b)(7) - (E)

Information concerning these individuals is hereafter set out.

FOIA(b)(7) - (D)

LAWRENCE TODD

Special Agent J. H. COWAN ascertained from Confidential Informant [redacted] that LAWRENCE TODD is included among a group of individuals registered with the State Department as employees of the Telegraph Agency of the U.S.S.R. which is commonly referred to as Tass News Agency. He is listed with the State Department as the Washington representative of that organization and was so listed in its most recent supplementary statement filed on June 6, 1941.

An examination of the telephone directory of Washington, D. C. reveals that TODD maintains an office in the National Press Building and resides at 4508 Langdrum Road, Chevy Chase, Maryland.

At Stone's Mercantile Agency, 1419 H Street, N.W. Miss MARY ELIZABETH LAUCK made available her file on TODD which revealed the following information.

In a report dated February 23, 1938 it was stated that TODD at that time was 54 years of age and had previously been divorced by his first wife, CONSTANCE LEUPP TODD,

NW 38037 DocId:32699413 Page 10

in Reno, Nevada August 14, 1935, the charge being cruelty. He is presently married, his wife's name being DOROTHY. At that time he had two sons, DAVID 19 and ALDEN 17. It was indicated that TODD had made one trip to Russia and that he was at the time of the credit report the Washington representative of the Tass News Agency.

A newspaper clipping in the file set forth the following information:

"He gained notoriety last year (1934) when he was named by Dr. WILLIAM WIRT, Gary, Indiana schoolman, as being a prominent member of a famous dinner party in nearby Virginia at which the overthrow of the government was freely discussed. Dr. WIRT declared that during the dinner discussion of things revolutionary TODD ascerted that 'President ROOSEVELT was only the KERENSKY of this revolution.' TODD denied making such a statement both privately and before the Congressional Committee which investigated Dr. WIRT'S charges."

At the Credit Bureau, 1221 G Street, N. W. Miss HELEN O'NEILL made available the file which revealed that TODD who was born in 1882 had at one time been employed as the Manager of the Federated Press with main offices in Chicago for ten years prior to 1933. He was formerly associated with the Non-Partisan League of North Dakota. He became part-time correspondant of Tass News Agency before the assumption of diplomatic relations with Russia and later was placed on a full-time basis at a salary of approximately $5000 per year. It was indicated that he owns his home at 4508 Langdrum Lane, Chevy Chase, Maryland which is assessed at $18,386, however, it is encumbered with deeds of trust aggregating $7000.

Special Agent D. E. GOUBLEMAN through Confidential Informant [redacted] obtained the following information relative to the bank account of LAWRENCE TODD.

FOIA(b)(7) - (D)

NW 38037 DocId:32699413 Page 11

The records of the National Savings and Trust Company, 15th and New York Avenue, disclosed that LAWRENCE TODD maintained a joint checking account, No. 113806, with his wife, DOROTHY TODD. This account was opened on February 3, 1938. The signature card disclosed that the father of LAWRENCE TODD was OLIVER HARVEY TODD and that LAWRENCE was born in Nottawa, Michigan, December 15, 1882. His business address was reflected as the Press Building, 1410 F Street, N. W., and his occupation was listed as press correspondent. His present residence address is 4508 Langdrum Road, Chevy Chase, and his prior residences were indicated at 1657 31st Street, N. W., and 3730 Huntington Street, N. W.

With reference to DOROTHY TODD, it was ascertained that she was born April 15, 1899 and that her father's name was HERMAN F. (or T.) HESSLER. No further information was reflected concerning DOROTHY TODD.

Examination of the ledger card reflected that all checks drawn on the account were of ordinary amount, and further examination of the checks drawn in August up to August 12, 1941 reflected nothing of information to this office.

A check of deposits since April, 1941 disclosed the following deposits:

| DATE | AMOUNT | | ANALYSIS |
|---|---|---|---|
| 1941 | | | |
| April 5 | $110.00 | $35.00 | New York Item |
| | | 1.00 | West Virginia |
| | | 74.00 | cash |
| April 12 | $278.15 | $13.75 | Omaha item |
| | | 39.00 | cash |
| | | 225.40 | New York |

Examination of the Recordak film disclosed that the item for $225.40 was a cashier's

NW 38037 DocId:32699413 Page 12

check on the Chase National Bank, dated March 26, 1940, No. FDI71296, made payable to DOROTHY ROVE, in care of LOEFFLER, No. 8, Lexington Avenue, Cambridge, Massachusetts. The check was endorsed by ROVE, but not by TODD. However, the bank appeared to have honored the check nevertheless.

| | | 23.10 New York | |
| July 15 | $105.75 | $ 6.75 local | |
| | | 99.00 New York | Check of the Recordak film disclosed this to be a check drawn on the Tass Telegraph Agency of the U.S.S.R., signed by either KLAVITT or KENNETH DURANT, which check was drawn on the Chase National Bank; and in the left-hand margin it was indicated that this was for salary $100.00, less old age $1.00. |
| July 21 | $ 50.00 | | |
| July 26 | $ 50.00 | | |
| August 1 | $64.28 | | |
| August 11 | $80.00 | | |

NW 38037 DocId:32699413 Page 14

Only those items were analyzed which are set out above. It would appear from the foregoing that TODD is receiving a weekly check of $99.00 from the Tass Telegraph Agency. Inasmuch as the deposit tickets reflected that the $99.00 items were all drawn on New York City, it was assumed that all of these items were made up of checks drawn on the Tass Telegraph Agency.

In the Legislative Reference Section of the Library of Congress, Mr. LAWSON HAMLIN made available a booklet entitled "Hearings Before the Select Committee to Investigate Charges Made by Dr. WILLIAM A. WIRT". An examination of this booklet revealed that the select committee composed of A. L. BULWINKLE, Chairman, JOHN J. O'CONNOR, WILLIAM W. ARNOLD, Mr. McGUGIN and Mr. LEHLBACH, was instituted for the purpose of investigating charges made publicly by Dr. WIRT to the effect that matters of a revolutionary nature had been discussed at the home of ALICE BARROWS, an employee of the Department of Education, at a dinner party on Friday evening, September 1, 1933. According to Dr. WIRT, people present at that dinner party in addition to himself and Miss BARROWS were ROBERT BREUERE, Chairman of the Textile Code Advisory Board, DAVID CUSHMAN COYLE, member of the Technical Review Board of the PWA, LAWRENCE TODD, Tass News Agency representative, HILDEGARD NEELAND, employed in the Home Economics Department, Department of Agriculture and MARY TAYLOR, Economist with the AAA Division of the Department of Agriculture. WIRT charged that the people attending this dinner, particularly Miss NEELAND and Miss TAYLOR, had expressed the views of the "brain trusters" particularly mentioning REXFORD G. TUGWELL and Secretary HENRY A. WALLACE as being that recovery from the economic depression then besetting this country must be blocked and reiterated in order that a planned economy under government registration and control of Agriculture labor and industry might be instituted. There was no suggestion that force or violence be used or that the established governmental agency be forcibly

NW 38037 DocId:32699413 Page 15

overthrown. Dr. WIRT charged that TODD had made the following statement:

"We believe that we have Mr. ROOSEVELT in the middle of a swift stream and that the current is so strong he cannot turn back or escape from it. We believe we can keep Mr. ROOSEVELT there until we are ready to supplant him with a STALIN. We all think that Mr. ROOSEVELT is only the KERENSKY of this revolution."

Dr. WIRT also charged that Miss NEELAND said: "There are so many people of our group here now in the government and many of them have key positions. Why don't we do something worthwhile?"

This hearing began April 10, 1934 and continued for several days thereafter. Dr. WIRT was the first witness called and his testimony has been stated in summary fashion in the proceeding paragraph.

He was very positive in his statement that all of the individuals and particularly TODD, Miss NEELAND and Miss TAYLOR had expressed the opinion that there was a definite and concerted purpose behind the "brain trusters" in Washington to retard economic recovery to such an extent that the disatisfaction of the people of the United States and condition at that time would make it easy to enforce upon them any economic or government system which their leader should suggest and that it was planned to thus force upon them a system of regimentation and governmental control of all industry and agriculture.

At the conclusion of the testimony of Dr. WIRT the other individuals alleged to have been in attendance at the dinner referred to were called as witnesses and without exception all of these people concurred in the following version of the evening's events.

NW 38037 DocId:32699413 Page 16

They maintained that they had all been invited to Miss BARROW'S home for the purpose of meeting Dr. WIRT who was supposed to have valuable views on education. At the conclusion of the dinner, however, Dr. WIRT took the floor in a discussion of the economic effect to this country of the devaluation of the dollar and of the abandonment of the gold standard. They insisted almost without exception that Dr. WIRT maintained the floor and dominated the conversation throughout the entire evening to such an extent that none of the other guests were able to make themselves heard or engage in the conversation at all. They stated that Mr. BREUERE attempted on one occasion to lead the conversation back to a discussion of educational problems but was unsuccessful in doing so.

LAWRENCE TODD was vigorously cross examined on the witness stand by Mr. McGUGIN and Mr. LEHLBACK and in the course of this cross examination denied having made any statements whatsoever during the course of the evening and specifically denied having made the statement attributed to him by Dr. WIRT in which it was alleged that he had referred to President ROOSEVELT as the KERENSKY of the revolution. TODD said that he was acquainted with all of the members of the group with the exception of DAVID CUSHMAN COYLE and Dr. WIRT. He had attended the dinner on the invitation of Miss BARROWS. When questioned under cross examination as to his own social and political views TODD declined to answer on the grounds that he was a representative of a foreign news agency and that his employers might be considerably embarrassed by his answer. He said, however, that it is well known he was always a Socialist. TODD testified that at the time of the dinner he was writing principally for the Federated Press which furnished news matter to various labor newspapers. Under cross examination he admitted that the Daily Worker subscribed to that news service. TODD likewise admitted under cross examination that he was a former employee of the American Civil Liberties Union about five or six years

NW 38037 DocId:32699413 Page 17

prior to the date of the investigation and stated that he had considerable admiration for its work. He successfully evaded all questions concerning his own social and economic beliefs at that time.

Mr. BREUERE stated under cross examination that between 1918 and 1922 he had criticized the Department of Justice for its conduct toward the IWW and had been a defender of that organization.

The finding of the Committee was that no showing had been made that any person or group in the government service planned the overthrow of the existing social order. This was the majority report signed by A. L. BULWINKLE, Chairman, JOHN J. O'CONNOR and WILLIAM W. ARNOLD. A minority report entirely disagreeing with the majority report and urging a more thorough investigation of activities within the government was endorsed by Mr. McGUGIN and Mr. LEHLBACH. It was noted that throughout the course of the investigation there was noted a division of opinion on every major issue along the same lines as the division of opinion in the report. Throughout those who endorsed the majority opinion were inclined to accept the statements of the other members of the dinner party who denied allegations of Dr. WIRT, while on the other hand those endorsing the minority report vigorously cross examined the witnesses and sought to establish the fact that the witnesses had conspired to contradict Dr. WIRT'S testimony and had attempted to establish the existence of a plot to retard national recovery.

An examination of the indices of the Washington Field Office regarding the other members of the alleged dinner party reveals the following information.

The name of DAVID CUSHMAN COYLE is reflected as appearing on the indices of the following alleged Communist front organizations:

NW 38037 DocId:32699413 Page 18

American Spanish Aid Committee (name appears on letterhead of this organization)
Active indices of American Peace Mobilization
Washington Committee for Democratic Action

The name of COYLE'S wife appears on the indices of
American Peace Mobilization
American Spanish Aid Committee

The name of Miss HILDEGARD NEELAND appears on
active indices of American Peace Mobilization
American League for Peace and Democracy
Washington Committee for Democratic Action
League of Women Shoppers

The name of ALICE BARROWS appears on indices of
American Peace Mobilization
American League for Peace and Democracy
Washington Committee for Democratic Action
She is also supposed to be an active member of the Communist Party.

LAWRENCE TODD from observation is described as follows:

Age - 59, born 12/15/82
Birthplace - Nottawa, Michigan
Office - National Press Building
Residence - 4508 Langdrum Road, Chevy Chase, Maryland
Height - approximately 6'
Wife - DOROTHY HESSLER TODD
Sons - DAVID, 25 and ALDEN, 23, addresses unknown
Weight - 170-175 pounds
Build - slender
Eyes - blue

NW 38037 DocId:32699413 Page 19

glasses - gold-rimmed
Complexion - fair
Peculiarities - partially bald,
walks with slight stoop

SERGE RUBINSTEIN

By reference to Washington Field Office file 97-136, SERGE RUBINSTEIN, Registration Act, New York City origin, it has been ascertained that RUBINSTEIN is identical with the subject of this case. Consequently, no further information concerning him is being set out herein.

MADAME YVONNE ROUZ DE LOS LLENOS

From Confidential Informant T-1 it was ascertained that Madame YVONNE ROUZ DE LOS LLENOS registered at the Shoreham Hotel December 30, 1940 and stayed until March 18, 1941, registering from the Plaza Hotel, New York City. T-1 advised that when Madame DE LOS LLENOS left the Hotel in March that she was indebted to the Hotel in the sum of approximately $1500 resulting from some of her checks being turned down when presented for payment. She was not heard from for some time when a letter was received indicating she had been ill and was staying at the Hotel Nacionale in Havana, Cuba. Upon her return to the Shoreham Hotel she held a long conference with T-1 relative to her indebtedness at which time she advised him that her purpose in this country was to negotiate for the sale of hides and beef. She told him that she had recently negotiated a sale of 40,000 tons of hides and 12,000,000 cans of Argentine beef to the Russian government. It is assumed she referred to Amtorg Trading Corporation. She told T-1 that her illness while in Havana had been caused by an infection resulting from vitamin injections she was taking hypodermically in her hip. She mentioned being acquainted with Dr. OSCAR DIAZ ALBERTINE, a lobbyist for sugar interests who formerly maintained an office in the National Press Building in Washington and who is the

NW 38037 DocId:32699413 Page 20

brother of a prominent attorney in Havana. She explained her bad checks by saying that at the time of their original deposit for collection some money she was expecting from Argentina had not arrived and she was prevented by her illness from making the necessary arrangements. She claimed that she had a credit of approximately 100,000 pounds sterling with the Bank of London and showed the informant what perported to be a letter from one of the officials at that bank to that effect. She stated that the bank had offered to pay her 50% of the credits if she would donate the remainder to the British War effort, which she declined to do. She had banking connections with the Bank of London and South America, Ltd. of New York City and with the bank of Nova Scotia, Havana, Cuba. When she departed from the Shoreham Hotel on June 20, 1941 she was required by the Hotel officials to leave some of her luggage to secure her unpaid account which at that time had been reduced to approximately $500.

Through the assistance of T-1 her baggage was examined and was found to consist of a few miscellaneous items of clothing and some pamphlets and books apparently dealing with industrial statistics on Argentina. These books were printed in the Spanish Language. With her luggage were also some items of luggage belonging to Dr. SANTIAGO HECHART of Buenos Aires who had stayed at the Shoreham Hotel from December 30, 1940 until January 22, 1941. On his registration card this individual indicated an affiliation with O'Farrell and Everett, Buenos Aires. T-1 had no information concerning Dr. HECHART and did not know what his connection with Madame DE LOS LLENOS might be.

T-1 advised that Madame DE LOS LLENOS is an extremely attractive woman and was possessed of very beautiful and expensive clothing and luggage including two fur coats which she had stored and valued at $500 and $1500

NW 38037 DocId:32699413 Page 21

respectively. He knew nothing of any of her associates with the exception of Dr. HECHART previously referred to. He added that he had heard that she is related to the President of Argentina and is the widow of a former Argentenian Ambassador to this country, although this information has not been verified. She was described as follows:

Age - approximately 37-38
Height 5' 3"
Weight - 120 to 130 pounds
Build - medium, inclined to stoutness
Complexion - fair
Eyes - blue ?
Glasses - none
Nationality - Argentinian
Marital status - widow

The following telephone calls were noted on her bill:

| | | |
|---|---|---|
| 6/18/41 | National 7550 twice | Russian Embassy |
| | Michigan 1508 | Unidentified |
| | Columbia 7984 | Russian Embassy Chancery |
| | Columbia 0190 | Spanish Embassy |
| | NY, University 69200 | Mr. COSTELLO |
| 6/19/41 | National 0852 3 times | Argentine Chancery |
| | Columbia 0190 | Spanish Embassy |
| | Havana, Cuba, M 9525 | Mr. SURAZ, charges $14.95 |
| 6/20/41 | NY, Murray 69200 | Mr. COSTELLO |

It is noted that telephone numbers in New York University 69200 and Murray 69200 are listed. Apparently there is an error in the exchange, but the above information is as it appears on the records of the Shoreham Hotel.

Due to the alleged official connection of Madame

NW 38037 DocId:32699413 Page 22

DE LOS LLENOS and to the fact that no information has been developed indicating that she is engaged in activities inimical to the best interests of this government, no further investigation of her will be conducted unless expressly authorized by the Bureau.

U. K. VUKMANIC

Confidential Informant T-2 advised that VUKMANIC has been in and out of Washington for approximately one year and stops frequently at the Gordon Hotel, 916 16th Street, N. W. Through conversation with him T-2 ascertained that VUKMANIC was born in Philadelphia, Pennsylvania and that his present home is McKeesport, Pennsylvania. VUKMANIC claims to have worked on a hydro-electric project in Russia under the Five Year Plan some several years ago and the informant obtained the impression that VUKMANIC had some official connection with the U. S. Department of Commerce. More recently VUKMANIC handled publicity for the Pennsylvania Turnpike and upon the occasion of its formal opening drove the car in which Russian Ambassador C. OUMANSKY rode. VUKMANIC spoke fluent Russian and thus struck up an acquaintance with OUMANSKY. VUKMANIC is said to have attended Georgetown University Foreign Service School and to be principally interested in that field. He has the commission as a reserve intelligence officer (probably meant to be MID) and has been endeavoring to obtain government employment in Washington. The informant is of the opinion that VUKMANIC desired to be connected with the Foreign Service Division of the State Department. At the time of the interview with the informant VUKMANIC had returned to McKeesport, Pennsylvania for the purpose of assisting in the campaign of Mr. BUCHANAN for Mayor of that city. Due to the fact that VUKMANIC places his phone calls through a pay station in the lobby of the Hotel, no information could be obtained concerning them.

NW 38037 DocId:32699413 Page 23

T-2 described VUKMANIC as follows:

Age - 38-40 years
Height - 6'
Weight - 175-180 pounds
Build - medium
Complexion - dark
Hair - dark brown or black
Nationality - American
Pecularities - heavy features, large head, high forehead, mole on cheek

RAY FOREST

The confidential source referred to in the opening pages of this report has revealed that this individual speaks fluent Russian and has had frequent contacts with the Russian Embassy, particularly with Major PAUL BARAYEV, Assistant Military Attache. At one time he referred to Home and Abroad Trading Corporation as his business connection.

From Confidential Informant T-3 it was ascertained that FOREST registered at the Willard Hotel giving his address as 370 Columbia Avenue, New York City. He stayed at the Willard from July 30, 1941 to August 1, 1941, from August 6, 1941 to August 8, 1941 and from August 14, 1941 to August 18, 1941. The informant had no information whatsoever concerning FOREST except his phone calls which are set out as follows:

| | | |
|---|---|---|
| 7/30/41 | Metropolitan 2260 | Hay Adams House, 800 16th St. |
| 7/31/41 | National 2057 | Unidentified |
| 8/1/41 | Republic 3997 | Amtorg Trading Corp. |
| | National 7550 2 times | Russian Embassy |
| 8/6/41 | | Mr. Hunt, did not talk |
| | | VAN DUINEN |
| | | 2322 (or 2R22) Mt. Vernon, Me. |

NW 38037 DocId:32699413 Page 24

| | | |
|---|---|---|
| 8/6/41 | National 7550 | Russian Embassy |
| 8/7/41 | NYC Circle 65780 | Mr. ROSENDALL |
| | NYC Trafalgar 7-9078 | asked for anyone |
| | Republic 3997 | Amtorg Trading Corp. |
| | National 7550 3 times | Russian Embassy |
| | National 2057 | |
| 8/8/41 | NYC Circle 6-5780 | Mr. ROCELDER |
| | National 2057 2 times | |
| | Rented typewriter charge $2.00 | |
| | NYC Trafalgar 7-9078 | Anyone |
| | Mr. TRESSLER DREXEL called Hillside, Pa. Sun 3532 and asked for anyone. (This may not be charged on FOREST'S bill.) | |
| 8/15/41 | NYC Trafalgar 7-9078 | Anyone, three calls |
| | Columbia 0712 3 times | Kenesaw Apts., 16th and Irving St., N.W. |
| | National 7550 4 times | Russian Embassy |
| | Hobart 2461 | Unidentified |
| 8/17/41 | National 2057 | Unidentified |
| 8/18/41 | National 2057 | |
| | National 7550 3 times | Russian Embassy |
| | Columbia 0712 | Kenesaw Apartments |

The New York telephone directory lists R. F. FOREST, 1270 6th Avenue, Circle 6-6549.

NW 38037 DocId:32699413 Page 25

## UNDEVELOPED LEADS

NEW YORK FIELD DIVISION

At New York City, New York will ascertain the background and activities of RAY FOREST and determine what may be his connection with the Russian Embassy.

Will ascertain the background and nature of business of Home and Abroad Trading Corporation

PITTSBURGH FIELD DIVISION

At McKeesport, Pennsylvania will conduct a discreet investigation to determine the background and activities of U. K. VUKMANIC.

Recent information received from a strictly confidential source has caused it to be considered advisable to set out for the benefit of the Bureau a complete resume of the activities of VUKMANIC as reflected by the confidential source, and to set out additional leads in connection with his activities.

All of the following information has been obtained by the Washington Field Office over a period of time, extending from November 9, 1940, to the present date, from the above-mentioned strictly confidential source. It will be noted that on some occasions the initials or spelling of this individual's name may vary from that used heretofore.

In connection with WALTER JONES, it was noted that in the Washington Times-Herald of January 2, 1941, a news item under the headline of PEARSON-ALLEN "First Nazi Peace Bid," a story was printed quoted from the column "Washington Merry-go-Round" by PEARSON and ALLEN of February 18, 1940, Times-Herald, in which it was stated that W. R. DAVIS, international oil man who achieved considerable publicity relative to his presumably having received, at the outset of the war, Germany's peace proposal, had been visiting with JOHN L. LEWIS and WALTER JONES of Pittsburgh in the latter's apartment and told of various conversations he had had with HITLER. It was further stated

NW 38037 DocId:32699413 Page 32

that DAVIS presented the German peace plan to ANDY BERLE of the State Department for transmission to the press, and that WALTER JONES was present at that date. Later that day, DAVIS and JONES motored to Harrisburg, Pennsylvania.

It is suggested that the connection between JOHN L. LEWIS and WALTER JONES may be of some significance.

[redacted]

Mr. HARPER, it has been ascertained through the strictly confidential source, is President of the American Road-builders' Association.

On April 25, 1941, G. J. VUKMANIC, formerly connected with the Pennsylvania Turnpike Commission,

## UNDEVELOPED LEADS

### THE PITTSBURGH FIELD DIVISION

AT PITTSBURGH, PENNSYLVANIA: Will conduct appropriate investigation to ascertain the identity of JULIUS J. STRBA, 221 Henderson, Pittsburgh, Pennsylvania, and Mr. BUTKOVICH, and will conduct thorough investigation to ascertain if these individuals are engaged in any activities inimical to the welfare of this Country.

It is suggested that they may be connected with, or acting through various Slavic organizations, and it is suggested that Confidential Informants in such groups may be of some assistance.

### THE RICHMOND FIELD DIVISION

AT RICHMOND, VIRGINIA: Will attempt to identify the individual referred to as Mr. SWARTSCHILD and conduct appropriate investigation into his background and activities.

Will, through confidential sources, attempt to ascertain the purpose of the visit by Mrs. VUKMANIC to Richmond, Virginia, it being noted that she was apparently in that city on approximately September 22, 1941. Registration cards of principal hotels in Richmond should be checked for the period immediately before and after this date, September 22, 1941, to ascertain where she stayed while in Richmond.

Re: RUSSIAN EMBASSY
Internal Security (R)

Dear Sir:

The information set forth hereinafter was furnished this office by MR. DANIEL P. HICKEY, Department of Justice Attorney.

Mr. HICKEY advised that the Attaches of the Russian Embassy occupy a residence on Wild Rose Shores, Maryland near Annapolis, and they are believed to be operating a short-wave radio at that point.

Mr. HICKEY furnished the name of R. W. DILLUPS, Franklin Park, Virginia, telephone, Chestnut 4383, as the electrician who installed the above mentioned radio.

In view of the diplomatic connections described herein, no action has been taken in connection with this matter, however, copies of this communication are being furnished the Baltimore and Richmond Field Office for their information.

Very truly yours,

GUY HOTTEL

RE: RUSSIAN ACTIVITIES

Dear Sir:

This letter will supplement information previously provided the Bureau and all Field Offices, which was obtained from the PR1 forms of individuals in this country connected with the Russian Government. These PR1 forms have been filed since the date of the previous letter referred to.

Where a photograph is available, it is indicated by an asterisk (*). The negative of each photograph is maintained in the Washington Field Office and additional copies can be furnished upon request. Photographs are being provided to those offices within whose territory the respective individuals are residing. In addition, the New York Field Division is being provided with copies of all photographs.

No descriptive data is available, except the date of birth, which has been included. Additional data as to each, is available from the files of the State Department and possibly from the Immigration and Naturalization Service. If it is desired, appropriate leads should be set out by the interested offices.

In the interest of brevity, the following abbreviations are being used:

A – Employed by Amtorg Trading Corporation
B – Born
DT – Duties terminated
GC – Glavesprom Commission
WDC– Washington, D. C.
NYC– New York City, New York
RES– Residence

Washington, D. C.

RE: RUSSIAN ACTIVITIES
ESPIONAGE - R.

Dear Sir:

For sometime it has been the voluntary practice of the Embassies to file with the Protocol Division of the State Department lists of officials and employees of the several governments. From time to time in the past this office has provided the Bureau with certain information relative to Russian Diplomatic officials and employees and other Russian individuals in the United States having official connection with the Russian government. This information has been obtained from the PR-1 forms files, as heretofore stated, with the Department of State. This letter contains the names of additional individuals thus notified to the State Department, together with personal information concerning them.

No descriptive data is available except the date of birth which has been included. Additional data concerning each is available in the files of the State Department and in the files of the Immigration and Naturalization Service. If further information is desired, an appropriate request should be made.

Photographs of all of the individuals referred to in this matter have been obtained and the negatives are in the possession of the Washington Field Division. Two copies of each photograph are being enclosed for the New York Field Division for possible use in connection with the captioned matter and in connection with the case entitled, "Amtorg Trading Corporation, Espionage - R," of which the New York office is the office of origin.

+PETER PETROVICH AKIMOV - Engineer, Electrical Department Soviet Purchasing Commission, Washington, D. C. Born, January 21, 1906; residence, 1354 Spring Road, N. W., Washington, D. C.; duties assumed June 29, 1942.

Re: RUSSIAN ACTIVITIES
ESPIONAGE - R

(Copy filed in "Diplomatic List" 62-6404-8)

Dear Sir:

For some time, it has been the voluntary practice of the Embassies to file with the Protocol Division of the State Department, lists of officials and employees of the several governments. From time to time in the past, this office has provided the Bureau with certain information relative to Russian Diplomatic officials and employees and other Russian individuals in the United States having official connection with the Russian Government. This information has been obtained from the PR-1 form filed, as heretofore stated, with the Department of State. This letter contains the names of additional individuals thus notified to the State Department, together with personal information concerning them.

No descriptive data is available except the date of birth which has been included. Additional data concerning each is available in the files of the State Department, and in the files of the Immigration and Naturalization Service. If further information is desired, an appropriate request should be made.

Photographs of all of the individuals referred to in this letter have been obtained and the negatives are in the possession of the Washington Field Division. Two copies of each photograph are being enclosed for the New York Field Division for possible use in connection with the captioned matter, and in connection with the case entitled "Amtorg Trading Corporation, Espionage - R", of which the New York Office is the office of origin. In addition, other interested offices are being provided with photographs of individuals residing within their territory.

ALEKSEY PROKOPHEVICH AGEEV, Supervising Engineer of Ships Repairs, Soviet Purchasing Commission, Seattle, Washington; wife, VARVARA; born September 18, 1910; residence, Hungerford Hotel, Seattle, Washington; assumed duties September 7, 1942.

Re: RUSSIAN ACTIVITIES
ESPIONAGE (R)

Dear Sir:

For some time it has been the voluntary practice of the Embassies to file with the Protocol Division of the State Department lists of officials and employees of the several governments. From time to time in the past this office has provided the Bureau with certain information relative to Russian diplomatic officials and employees and other Russian individuals in the United States having official connection with the Russian Government. This information has been obtained from the PR-1 form filed, as heretofore stated, with the Department of State. This letter contains the names of additional individuals thus notified to the State Department, together with personal information concerning them.

No descriptive data is available except the date of birth, which has been included. Additional data concerning each is available in the files of the State Department, and in the files of the Immigration and Naturalization Service. If further information is desired, an appropriate request should be made.

Photographs of all of the individuals referred to in this letter, except those before whose name an asterisk appears, have been obtained and the negatives are in the possession of the Washington Field Division. Two copies of each photograph are being enclosed for the New York Field Division for possible use in connection with the captioned matter and in connection with the case entitled, "AMTORG TRADING CORPORATION; ESPIONAGE (R)", of which the New York Field Division is the office of origin. In addition, other interested offices are being provided with photographs of individuals residing within their territory.

Re: RUSSIAN ACTIVITIES
ESPIONAGE (R)

Dear Sir:

For some time it has been the voluntary practice of the Embassies to file with the Protocol Division of the State Department lists of officials and employees of the several governments. From time to time in the past this office has provided the Bureau with certain information relative to Russian diplomatic officials and employees and other Russian individuals in the United States having official connection with the Russian Government. This information has been obtained from the PR-1 form filed, as heretofore stated, with the Department of State. This letter contains the names of additional individuals thus notified to the State Department, together with personal information concerning them.

No descriptive data is available except the date of birth, which has been included. Additional data concerning each is available in the files of the State Department, and in the files of the Immigration and Naturalization Service. If further information is desired, an appropriate request should be made.

RECORDED
INDEXED 105 100-7826-5[illegible]

Photographs of all of the individuals referred to in this letter have been obtained and the negatives are in the possession of the Washington Field Division. Two copies of each photograph are being enclosed for the New York Field Division for possible use in connection with the captioned matter and in connection with the case entitled, "AMTORG TRADING CORPORATION; ESPIONAGE (R)", of which the New York Field Division is the office of origin. In addition, other interested offices are being provided with photographs of individuals residing within their territory.

Re: RUSSIAN ACTIVITIES
ESPIONAGE (R)

Dear Sir:

For some time it has been the voluntary practice of the Embassies to file with the Protocol Division of the State Department lists of officials and employees of the several governments. From time to time in the past this office has provided the Bureau with certain information relative to Russian diplomatic officials and employees and other Russian individuals in the United States having official connection with the Russian Government. This information has been obtained from the FR-1 form filed, as heretofore stated, with the Department of State. This letter contains the names of additional individuals thus notified to the State Department, together with personal information concerning them.

No descriptive data is available except the date of birth, which has been included. Additional data concerning each is available in the files of the State Department, and in the files of the Immigration and Naturalization Service. If further information is desired, an appropriate request should be made.

Photographs of all of the individuals referred to in this letter have been obtained and the negatives are in the possession of the Washington Field Division, except those before whose name an asterisk appears. Two copies of each photograph are being enclosed for the New York Field Division for possible use in connection with the captioned matter and in connection with the case entitled, "AMTORG TRADING CORPORATION; ESPIONAGE (R)", of which the New York Field Division is the office of origin. In addition, other interested offices are being provided with photographs of individuals residing within their territory.

Re: RUSSIAN ACTIVITIES
ESPIONAGE (R)

Dear Sir:

For some time it has been the voluntary practice of the Embassies to file with the Protocol Division of the State Department lists of officials and employees of the several governments. From time to time in the past this office has provided the Bureau with certain information relative to Russian diplomatic officials and employees and other Russian individuals in the United States having official connection with the Russian Government. This information has been obtained from the PR-1 form filed, as heretofore stated, with the Department of State. This letter contains the names of additional individuals thus notified to the State Department, together with personal information concerning them.

No descriptive data is available except the date of birth, which has been included. Additional data concerning each is available in the files of the State Department, and in the files of the Immigration and Naturalization Service. If further information is desired, an appropriate request should be made.

Photographs of all of the individuals referred to in this letter, except those before whose name an asterisk appears, have been obtained and the negatives are in the possession of the Washington Field Office. Two copies of each photograph are being enclosed for the New York Field Division for possible use in connection with the captioned matter and in connection with the case entitled, "AMTORG TRADING CORPORATION; ESPIONAGE (R)", of which the New York Field Division is the office of origin. In addition, other interested offices are being provided with photographs of individuals residing within their territory.

No descriptive data is available except the date of birth, which has been included. Additional data concerning each is available in the files of the State Department, and in the files of the Immigration and Naturalization Service. If further information is desired, an appropriate request should be made.

Photographs of all of the individuals referred to in this letter, except those before whose name an asterisk appears, have been obtained and the negatives are in the possession of the Washington Field Division. Two copies of each photograph are being enclosed for the New York Field Division for possible use in connection with the captioned matter and in connection with the case entitled, "AMTORG TRADING CORPORATION; ESPIONAGE (R)", of which the New York Field Division is the office of origin. In addition, other interested offices are being provided with photographs of individuals residing within their territory.

An investigation at 80 West 40th Street, New York City, reflected that the building located at this address is a large studio apartment, located in a business section of New York City. It was determined at this address that the renting agents for the building are Cross & Browne, Real Estate Agents, 270 Madison Avenue, New York City.

Mr. STEERE, Agent at the Cross & Browne Real Estate Office mentioned above, stated that he originally negotiated the signing of a lease at 80 West 40th Street with Mr. SHULKIN. Mr. SHULKIN occupies studio #23 at this address, which is on the third floor of the building. The studio is composed of a two room apartment for which SHULKIN pays $1400 per year. He signed a lease on January 1, 1944, which expires on December 31, 1946.

Mr. STEERE stated that SHULKIN is a portrait painter and mural artist. He banks with the Manufacturer's Trust Company, 745 Fifth Avenue, New York City, which bank recommended Mr. SHULKIN as a tenant, and stated to Cross & Browne that their business relations with him were very small. SHULKIN has a small bank account at this branch and the bank knows nothing concerning his private affairs.

Mr. MAURICE MENCHER of 242 East 71st Street, New York City, was given as a reference by SHULKIN when he signed his lease. MENCHER's business address is 33 West 42nd Street, New York City, and he is listed as an attorney.

The records of the Credit Bureau of Greater New York have a report on ANATOL SHULKIN as of March 19, 1938. Their report lists his wife as DOROTHY B. and present and past residences are listed as 19 East 59th Street; 226 West 70th Street; 73 Riverside Drive, all of New York City; and 156 South 9th Street, Huntington, West Va. Subject is in his late thirties or early forties, and is reported as being single. However, records dated June, 1935 reported him as being married. His present residence is in an apartment house of fairly good description in a mixed business and residential section. His living conditions are favorable and he resides at 19 East 59th Street with two other men who are well regarded. They have occupied the apartment since August 1, 1937 and have a lease on apartment #6 where they pay $55 monthly rent very promptly.

SHULKIN is known as an interior decorator by profession and is understood to have followed that line for a number of years. He

NW 38037 DocId:32699413 Page 145

operates his business from his apartment and there is no outside indication of his business. The National Safety Bank at 38th Street and Broadway, New York City, was given as a reference by SHULKIN, which bank reports no record of a regular checking account in his name.

The credit report further reflects that SHULKIN pays his bills very slowly. SHULKIN, on December 30, 1942, was sued by one STEPHEN RENDOS for $128, and was represented by attorney M. MENCHER, 33 West 42nd Street, New York City. He was also sued by a HINMAN HARRETT for $113.83, and was represented by S. SCHIFF of 122 East 42nd Street, New York City.

The records of the United States Department of Immigration and Naturalization, 70 Columbus Avenue, New York City, reflect that file #2270-103945, ANATOLI SHULKIN, received his United States citizenship papers on July 7, 1927 in the United States District Court, Southern District of New York. He resided at the time of his naturalization at 41 Convent Avenue, New York City. His business is listed as an artist and his nationality as Russian. The witnesses to his petition for naturalization are recorded as ROBERT LE GLARE, insurance, 600 West 196th Street, New York City, and Mrs. ANNA LE GLARE, wife of ROBERT LE GLARE. It is noted that SHULKIN wished his name changed from ANATOLI to ANATOL SHULKIN.

SHULKIN filed petition for naturalization in the United States District Court at New York, New York. His correct name is ANATOLI SHULKIN, and his mother's name was MARY LONGFIELD LE GLARE. He was born on April 15, 1899 at Ekaterinoslaw, Russia. He came to the United States from Liverpool, England, and arrived at New York Harbor on November 4, 1910 aboard the SS MAURETANIA of the White Star Line. The person he was coming to in the United States was SAMUEL NEMTZOFF of New York City. The names of some of the passengers that were on the same ship with him are listed as, MARY EUGENIA and OLGA SHULKIN. His ticket was purchased by SAMUEL NEMTZOFF.

SHULKIN filed his first papers on February 20, 1925 in the Southern District of New York. He was not married at the time, and is listed as a citizen of Russia.

It is noted that SHULKIN's file contains an affidavit signed by him and notarized by JOSEPH DRUCKER on June 1, 1927, petitioning

NW 38037 DocId:32699413 Page 146

the court to expedite his final hearing for United States citizenship, which was scheduled for August 11, 1927, as he wished to go abroad for the purpose of doing research work in connection with his vocation as a decorative artist. He stated that he was delegated and granted a commission to decorate certain buildings, and it is imperative for the prosecution of such work to visit certain European libraries and museums for further reference, research and consultation.

A check of the New York Field Division files reflects that on August 8, 1940 ANATOLI SHULKIN of 257 West 85th Street, New York City, contacted the New York Office and stated that there is an organization at the Governor Clinton Hotel, New York City, named "The Progressive Serious" which is ostensively a musical organization of an international type. SHULKIN felt this may be an espionage group, although he had no further proof in this respect.

It is also noted in the report of Special Agent L.O. Prior, dated at New York City on December 3, 1941, in the case entitled "AMERICAN ARTISTS CONGRESS" that ANATEL SHULKIN, General Delivery, Mendham, New Jersey, was listed as a member of this organization. The American Artists Congress was incorporated in May of 1936 as a non-profit organization in New York City to unit all artists on all issues concerning economic and cultural security, and freedom and reaction. Some of its outstanding members resigned in 1940 because the international policy of the Congress followed the Communist Party line. Since then the Congress has been inactive and is not believed to be functioning extensively at the present time.

No further investigation will be conducted on ANATOL SHULKIN by this Field Division, unless requested to the contrary by the Washington Field Office.

Re: ~~SOVAC~~ Russian Activities
WASHINGTON, D. C.
INTERNAL SECURITY (R)

Dear Sir:

For some time it has been the voluntary practice of the Embassies to file with the Protocol Division of the State Department lists of officials and employees of the several governments. From time to time in the past this office has provided the Bureau with certain information relative to Russian diplomatic officials and employees and other Russian individuals in the United States having official connection with the Russian Government. This information has been obtained from the PR-1 form filed, as heretofore stated, with the Department of State. This letter contains the names of additional individuals thus notified to the State Department, together with personal information concerning them.

No descriptive data is available except the date of birth, which has been included. Additional data concerning each is available in the files of the State Department, and in the files of the Immigration and Naturalization Service. If further information is desired, an appropriate request should be made.

~~OFFICE RECORDS~~

Photographs of all of the individuals referred to in this letter, except those before whose name an asterisk appears, have been obtained and the negatives are in the possession of the Washington Field Division. Two copies of each photograph are being enclosed for the New York Field Division for possible use in connection with the captioned matter and in connection with the case entitled, "AMTORG TRADING CORPORATION; INTERNAL SECURITY (R)", of which the New York Field Division is the office of origin. In addition, other interested offices are being provided with photographs of individuals residing within their territory.

MEMORANDUM ON THE ARMENIAN SITUATION

His Excellency, Andrei A. Gromyko
Ambassador to the United States of America
Of the Union of Soviet Socialist Republics

Sir:

May we ask Your Excellency to kindly transmit to your government, in any form that you may deem expedient, the subject matter of this memorandum presented by the Armenian Democratic Liberal Party, an organization which speaks for a large and important part of United States citizens of Armenian descent.

Respectfully yours,

ARMENIAN DEMOCRATIC LIBERAL PARTY

Hratch Yervant President

Boston, Massachusetts Joseph B. Mousesian Secretary

October 4, 1943

(2)

THE SITUATION OF THE ARMENIANS
AT THE END OF THE FIRST WORLD WAR

The plight of the Armenians during and after the first World War forms the blackest page in history. The Turks, as an Ally of Germany, and by her instigation and direction, most cruelly deported one and a half million Armenians from their historic homeland, scattered them throughout the hot deserts of Mesopotamia, and almost every one of them either was killed or died of hunger.

The first World War was followed by such political and territorial arrangements between the various powers concerned, that the remnants of the Armenians were left in a most precarious condition. These remnants were exiled from their own homeland by the exigencies of international conflicts, and deprived of the barest means of self-support, hundreds of thousands of our blood brethren were forced to take refuge in practically every European and Near Eastern country. Their presence has been tolerated by the people and the governments of those lands, temporarily at least, with the expectation that these refugees would someday depart from their shores. No-where have they been allowed to establish themselves as permanent residents or citizens, and very few of them have been able to ameliorate their situation economically or politically.

Unfortunately, neither the League of Nations nor any other international agency has found it possible, in the past, to do anything effective and of permanent value for the relief of these refugees scattered in Syria, France, Greece and other Balkan countries. Some few thousands of them had the good fortune of being repatriated to Soviet Armenia, that part of their ancestral homeland which

(2)

NW 38037 DocId:32699413 Page 170

onjoys a permanent and secure existence within the framework of the great Soviet Union. Our people will remain eternally grateful to the Soviet government for its humanitarian attitude and for the material help received in this enterprise of repatriation.

## THE CRITICAL CONDITION OF THE ARMENIANS OUTSIDE THE SOVIET UNION AT PRESENT

There are still countless thousands of these refugees who have neither any political status nor enjoy any measure of economic security in the various countries whose hospitality they have enjoyed for more than two decades. The termination of the present world conflict will make the lot of these Armenians more unbearable. The victory of the United Nations will necessarily open up the prospects of liberty and a more hopeful future for those countries of refuge. Yet, even victory will not restore to them, overnight, economic security and political stability; and extreme poverty and political and social turmoil will subject especially these refugee groups to direst hardships. They will be looked upon as burdens by the native populations. Only internationally organized relief on an unprecedented scale will perhaps suffice to alleviate their sufferings.

We are convinced, however, that no matter on what a generous scale is material relief provided for these refugee Armenians, its results will be only of temporary value. THEIR REPATRIATION THROUGH THE PROTECTION OF THE SOVIET GOVERNMENT TO SOVIET ARMENIA, WILL BE THE ONLY EFFECTIVE MEANS OF ENDING THEIR SUFFERINGS.

## ARMENIAN AMERICANS GREATLY CONCERNED

As Armenians, of the United States, we are greatly concerned

NW 38037 DocId:32699413 Page 171

with the fate of these refugees, because we have thousands of close relatives among them. We are, therefore, willing to undertake any measure of sacrifice to help find a solution to this problem of Armenian refugees.

This problem, as it exists today, is a holdover from the last World War, and its satisfactory solution can only be achieved through the rectification of some of the injustices done to these people and their cause. The present war is, in a way, the continuation of the last war which left many vital international problems unsolved and caused many grave injustices. The maltreatment of the Armenians and their cause was one of these great injustices; and we believe that in justice to the interests of civilization and humanitarian principles the cause of the Armenian people should be satisfactorily solved in so far as it does not clash with the vital necessity of universal peace and the viewpoint of the Soviet Union.

ARMENIANS OF SOVIET UNION GREATLY INTERESTED

We wish to point out, furthermore, that the interests of the Armenians of the Diaspora, and those living in Soviet Armenia, can in no sense be at variance. This would mean that the cause and the rights of the Armenians in exile are also the concern of the Armenians living in the Soviet Union, and that the future of the Armenian people, wherever they are found, is inseparably bound with the future of Soviet Armenia, which today is voluntarily sacrificing her property and the blood of her sons for the defense of the Soviet Union. That is why the Armenian people feel justified in expecting that the Soviet Union will find a way to achieve the salvation of

(2)

NW 38037 DocId:32699413 Page 172

the remnants of their race by returning them to their historic homeland.

## THE ONLY SOLUTION

The government of the U. S. S. R. is well aware that it will hardly be possible to domicile and rehabilitate these hundreds of thousands of Armenians in exile within the confines of the present Soviet Armenia. Additional territory seems absolutely essential for their repatriation. A revision of the frontiers between the U. S. S. R. and Turkey is the only possible solution of this territorial problem. These Territories are parts of historic Armenia, and justice and the interests of permanent peace require that they be restored to their rightful owners. Moreover, many of these unfortunate refugees were born and lived in the provinces now held by Turkey, and were forcibly ejected from and deprived of their homes and their property.

WE, THEREFORE, WOULD RESPECTFULLY REQUEST the Government of the U. S. S. R. to take up the settlement of the present phase of the Armenian problem with the neighboring government of Turkey. We are confident that, at the conclusion of this war, the Soviet Union, as one of the victorious powers, will secure the welfare of the Armenians outside of her borders, as a vital concern of one of her member republics, by obtaining a measure of justice for that part of the Armenian people who were expatriated and most cruelly treated after the last World War.

Respectfully submitted,

By the

FOIA(b)(7) - (D)

[redacted] has furnished Special Agent GEORGE E. DAVIS of this office with a letter dated December 27, 1940, which was contained in the files of Captain BRUNO DARU, former assistant military attache at the Vichy Embassy in Washington, D. C. [redacted]

Translated copies of this letter are being transmitted to the Bureau and the New York Field Office.

It is to be noted that the letter concerns one SIMONOVITCH, ex-employee of the Commercial Delegation of the URSS at Berlin who was reported to have been in contact with the Jewish organization of New York, "American Joint Distribution Committee," through the medium of his wife.

This is being submitted merely as a matter of information.

Note for DESAIX

SIMONOVITCH ex-employee at the Commercial Delegation of URSS at Berlin is presently attached to the Commercial Delegation at Brussels. He has a secretary,Mme.KATZ,who now has returned to U.R.S.S.

In the capacity of a diplomatic courrier,SIMONOVITCH makes the MOSCOW-BERLIN-PARIS course.

SIMONOVITCH is,through the medium of his wife,in contact with the Jewish organization of New York "American Joint Distribution Committee". This organization has offices in Paris, 19 rue de Teheran. Under pretence of helping the persecuted Jews and orienting their emigration,she is advised of many economic issues of the neutral and belligerent countries. One knows that its Committee has numerous attaches in U.R.S.S.

SIMONOVITCH advises of the information obtained from this source to SCHWARTZEFF Ambassador of the U.R.S.S. at Berlin and SCHWARTZEFF likewise passes it on to the leaders of the Third Reich.

Signed: Christopher.

Director, FBI

Dear Sir:

Re: [redacted] - Washington, D. C.
Internal Security - R

Russian Activities

For sometime it has been the voluntary practice of the embassies to file with the Protocol Division of the State Department lists of officials and employees of the several governments. From time to time in the past, this office has provided the Bureau with certain information relative to Russian individuals in the United States having official connection with the Russian government. This information has been obtained from the PR-1 form filed, as heretofore stated, with the State Department. This letter contains the names of additional individuals thus notified to the State Department, together with personal information concerning them. No descriptive data is available except the date of birth, which has been included.

Photographs of all of the individuals referred to in this letter have been obtained, and the negatives and photographs are in the possession of the Washington Field Office. Copies of these photographs may be obtained upon appropriate request.

TO : DIRECTOR, Federal Bureau of Investigation
Attention: WES REYNOLDS
FROM : GUY HOTTEL, SAC, Washington Field Office

DATE: July 11, 1946

SUBJECT: RUSSIAN ACTIVITIES
INTERNAL SECURITY - R
Soviet Activities

There are being forwarded herewith two photostatic copies of Project #35, classified "~~secret~~" by the Army, which were made available to Special Agent MAURICE L. CARROLL of this office by Lt. Colonel D. B. SHIMKIN of the Russian O./B. Section, M.I.S. of the War Department, for permanent Bureau possession.

DEFERRED RECORDING

This project in the German language is captioned "Nationales Verteidigungssystem Der USSR" (National Defense System of the USSR), and is described as a supplement to Chapter I of the handbook of the military forces of the USSR. The subject is discussed under the following three headings:

1.) Staatsfuehrung der USSR. im Kriege. (Government leaders of the USSR in the war).
2.) Militaerische Spitzengliederung. (Military leaders).
3.) Fuehrungsstaebe der Roten Armee. (Operations staff of the Red Army).

RECORDED & INDEXED

Particular attention is called to the personalities named on page 2 as members of the State Committee for National Defense, to those named on page 3 and 4 as members of the " Hauptquartier" (headquarters) and the general staff of the Red Army. It will be appreciated if the Bureau would make a copy of this project available to this office as background material for its files.

## 1) Government leaders of the USSR in the war.

( see encl. 1 ).

100-7826-54-115

The supreme, legislative representation of the Soviet Union is the " Supreme Council of the USSR." It comprises the " Presidium " of the Supreme Council",

COPIES DESTROYED 4-15-58 #34

the "Council of the Union" as the First Chamber and the "Council of Nationalities" as the Second Chamber. The chairman of the Presidium, Kalinin, is the head of government of the USSR.

Legislation changing the Constitution, basic decisions of foreign policy (mobilization, declaration of war, treaties), budget plan, and supreme jurisdiction are supervised by the Supreme Council of the USSR, also during the war.

The present state leadership is in the hands of the "Council of the People's Commissars" ( Council of Ministers ), respectively its committee, the "State Committee for Defense".

By the transfer of the executive power and far-reaching competencies to the State Committee for Defense ( in the summer of 1941 ), the centralized leadership of the USSR became united in the person of Generalissimo Josef Stalin as the chairman of the " State Committee for Defense", chairman of the "Central Committee of the All-Union Communist Party", supreme commander of the SU-armed- forces and People's Commissar for Defense.

The most important people's commissars ( ministers ) are members of the State Committee for Defense. It gives the orders for the conduct of the entire war and harmonizes military, political, and economical matters ( for instance the political and military aims of the operations, establishment of priorities for armaments production, extent of conscription).

The "State Committee for Defense" is composed of the following men;

Chairman : Generalissimo Stalin

1st Deputy Molotow (MOLOTOV)- People's Commissar for Foreign Affairs.

2nd Deputy Woroschilow (VOROSHILOV)- Stalin's representative in the Central Committee of the All Union Communist Party.

Members : Wossnessenskij (VOZNESSENSKY)- Stalin's representative as chairman of the Council of People's Commissars.

Berija (BERIA)- People's Commissar of the Interior.

Mikojan (MIKOYAN)- People's Commissar for foreign trade and heavy industry.

Kaganowitsch (KAGANOVICH)- People's Commissar for Transportation.

Malenkow (MALENKOV)- Polit. Bureau.

Chief of "Headquarters" (until the end of 1944 Marshal Shukow (ZHUKOV, also : JUKOV ).

Army General Bulganin (BULGANIN)- Deputy People's Commissar for Defense.

Advisory councils affiliated with the "State Committee for Defense" are:

a)The "Economic Council", a committee composed of prominent personalities of economy which establishes the guiding prin-

NW 38037 DocId:32699413 Page 191

ciples of economic warfare in detail, in accordance with the basic decisions of the State Committee for Defense (for instance distribution of raw materials etc.)

b)The "Headquarters" for the military conduct of the war.

2) Military leaders ( organization )- see encl. 1.

The armed forces are divided into :

The Red Army and

The SU-Navy.

The Aviation Corps is a part of the Red Army, resp. of the Navy.

The Supreme Leaders' organ of the SU-armed -forces is the " Headquarters" with the closely affiliated " General Staff of the Red Army ".

Generalissimo Stalin as the Supreme Commander of the Armed Forces is the leader of the " Headquarters ".

Headquarters and General Staff of the Red Army were separated from the People's Commissariat for Defense in the summer of 1941, and designated as the organ of the leadership of all the armed forces.

a) The " Headquarters " represents the Supreme War Council of the armed forces. It examines and determines the big events during the military conduct of the war, following the recommendations of the General Staff of the Red Army, and all basic questions of organization and training.

The following military assistants of Stalin and representatives of the main branches of the service are members of the " Headquarters ", as of the end of 1944:

Chief of "Headquarters"-- not known at the present time ( Marshal of the SU (Soviet Union) Shukov ( ZHUKOV, also JUKOV ) until his appointment to the rank of commander-in-chief of the First White-Russian Front).

Members : Marshal Wassiljewskij ( VASILYEVSKI )-- in his former position of Chief of the General Staff of the Red Army.

Army General Antonow ( ANTONOV )-- Chief of the General Staff of the Red Army;

Marshal Woroschilow ( VOROSHILOV );

Marshal Timoschenko ( TIMOSHENKO );

Admiral Kuznezow ( KUZNETSOV )-- commander-in-chief of the navy;

Grand Marshal of the Air Forces Nowikow ( NOVIKOV );

NW 38037 DocId:32699413 Page 192

Grand Marshal of the Artillery Woronow ( VORONOV );

Marshal of the Armored Troops Fedorenko ( FEDORENKO, also FYODORENKO or FEODORENKO)

Marshal of the Engineers Worobjew ( VOROBYEV );

Army General Chrulew ( KHRULEV )- Chief of Supply;

Col. General Tscherbakow ( CHERBAKOV )--Chief of the Police Head Administration.

b) The " General Staff of the Red Army " ( GENERALNYI SHTAB KRASSNOI ARMII ), (organization : see encl. 2 ), is closely affiliated with the Headquarters. It prepares the operation-plans and issues the orders in accordance with the guiding principles.established by the Headquarters. In the General Staff of the Red Army also all results of patrol activity against the enemy are evaluated as well as the combat experiences of the troops. By the issuance of orders pertaining to combat and of reports based on experience, the General Staff decidedly influences the training of the Red Army.

The Chief of the General Staff of the Red Army General Antonow ( ANTONOV ) successor to Marshal Wassiljewskij ( VASILYEVSKI ) Deputy Colonel General Slavin ( SLABIN ).

c) "People's Commissariat for Defense".

While "Headquarters" and "General Staff of the Red Army" take care of the leadership tasks for the Russian armed forces, the "People's Commissariat for Defense" as the top authority of the Red Army (some kind of War Ministry) comprises the technical departments of the individual branches of the service and arms of the service. The tasks of the individual "Head Administrations" can be gathered from their names.

Also within this sphere of authority Stalin as the "People's Commissar for Defense" exercises a central influence upon the organization, training and armament. The Chief of the "Headquarters" and the chief of the General Staff are "Deputy People's Commissars for Defense", thus the influence of this leadership organ was underlined again.

The "People's Commissariat for the Navy" includes in the "Head Navy Staff" also the leadership organ of the conduct of sea warfare.

3) Operations staff of the Red Army.

a) Classification and organization.

Between "Headquarters" (General Staff of the Red Army) and combat troops (riflemen divisions and fast moving corps) the following leadership staffs are connected with the Red Army:

aa) Front High Command (GLAVNOYE KOMMANDOVANIYE FRONTA)
It corresponds with regard to classification and sphere of tasks to the High Command of an Army Group; 4-5 armies are usually subordinated to the

NW 38037 DocId:32699413 Page 193

Front High Command. The total strength of the combined-arms unit is about 550-650, 000 men, air forces included. At the most important point the number of the subordinated armies is increased to 10 at times.

bb) Army High Command (KOMMANDOVANIYE ARMII)
The leadership tasks correspond to those of the Western European armies, while the total strength must be guessed at about 120-150,000 men in the case of 3-4 corps subordinated on the average.

cc) Corps Headquarters of a riflemen corps (KOMMANDOVANIYE STRELKOVAGO KORPUSSA)
While mechanized, tank, cavalry, and artillery corps of the Red Army form permanent organizations with regard to their composition, the corps headquarters of the riflemen corps are purely used as leadership staffs for 3-4- riflemen divisions on the average which alternate as the situation demands it. Furthermore, they must supervise the ammunition supply.

The Soviet-Russian operation staffs are divided into two echelons which have separate locations in most cases.

The 1st Echelon comprises the "Staff"(SHTAB) and the departments of the individual superiors of the arms of the service, while the 2nd Echelon comprises the supply services in the main.

Within the 1st Echelon the sub-departments with pure leadership tasks are united.

The superiors of the arms of the service are not parts of the staffs, but are directly subordinated to the troop leader, and the corresponding superiors of the arms of the service of the higher command have the right to issue technical orders.

The commander-in-chief of a front and army is supported by the "War Council" (VOYENNYI SOVIET), an advisory organ. It is composed of 4 persons (among them usually 1 superior of one arm of the service). The troop leader is the chairman.

A schematic picture of the basic organization of the leadership staffs of the Red Army is contained in encl. 3.

b) Personnel

The leaders of the individual sub-sections are generally called "Chief" (NACHALNIK), while the most important superiors of the arms of the service are called "Commander" (KOMMANDOYUSHCHI) since 1943, in view of the centralized command of their force during combat, from time to time.

The technical advisors subordinated to the chiefs or commanders are called "Deputy" (ZAMESTITELY) or "Aides" (POMOSHCHNIK) according to their significance.

1. The Deputy of the troop leader is the "Chief of Staff". All "Chiefs" or "Commanders" are permitted to issue detailed technical orders independently.

NW 38037 DocId:32699413 Page 194

All leadership staffs of the Red Army show a very great number of officers, but only a very small required strength of enlisted men, because even unimportant extra tasks are fulfilled by officers.

The required filling of positions with fully trained general staff officers was about half completed at the end of the war.

(The long-lasting training of the general staff was started too late.)

c) Troops of the leadership staffs.

The assignment of directly subordinated troops is very dissimilar. Here are the different troops:

Staff troops (security and economic units),

signal corps troops,

field reserve units,

supply troops,

directly subordinated army troops (artillery, mortars, antiaircraft artillery, etc.)

Of these mostly the staff and signal corps troops, field reserve units and units of the supply troops are organically subordinated.

Remarks on the organization of military leadership:

The position of the "Headquarters" and of the "General Staff of the Red Army" as leadership organ of the entire armed forces becomes evident from the appointment of the People's Commissar for the Navy, Admiral Kuznezow (KUZNETSOV), as a member of the "Headquarters".

The classification of the "General Staff of the Red Army" as the planning and executive authority of the supreme leadership organ is illustrated by the employment of the chief of the general staff for the time being as the 1st Deputy of the chief of "Headquarters".

That the General Staff of the Red Army is no longer a part of the "People's Commissariat for Defense" becomes evident from the abolishment of special liaison command posts of the "Head Administrations" which are important to leadership (for instance of the Head Administration for Signal Communications) as well as by the fact that the operation orders for the fronts and basic combat regulations are signed by the Chief of the General Staff of the Red Army.

NW 38037 DocId:32699413 Page 195

FOIA b 3 - 50 USC 3024 i 1 - Intelligence Sources and Methods

The intelligence has been collected by careful evaluation of all statements made by prisoners of war, documents seized, press items, and "Abwehr" reports and has mainly found its documentation in graphic pictures.

This supplementary is based upon the last publication of these reports, the leaflet "Leadership Staffs of the Red Army" and upon recollections.

In case the files of the "Referate" named above are found, the statements, particularly with regard to development and sub-division, can be considerably supplemented.

Quellenangabe.

~~SECRET~~

# NATIONALES VERTEIDIGUNGSSYSTEM DER USSR.

(Beitrag zu chapter I, handbook of the military forces of the USSR.)

1.) Staatsfuehrung der USSR. im Kriege. (Siehe Darst.Anl.1)

Oberste, gesetzgebende Vertretung der Sowjetunion ist der "Oberste Rat der USSR". Er umfasst das"Praesidium des Obersten Rates", den"Unionsrat" als I.Kammer und den "Nationalitaeten-Rat" als II.Kammer. Der Vorsitzende des Praesidiums, Kalinin, ist Staatsoberhaupt der USSR.

Verfassungsaendernde Gesetzgebung, grundlegende Entscheidungen der Aussenpolitik (Mobilmachung, Kriegserklaerung, Vertraege), Festsetzung des Haushaltsplanes und oberste Gerichtsprechung werden durch den Obersten Rat der USSR. auch im Kriege wahrgenommen.

Die laufende Staatsfuehrung ist dem "Rat der Volkskommissare" (Ministerrat) bzw. dessen staendigem Ausschuss, dem "Staats-Komitee fuer Verteidigung" uebertragen.

Mit der Uebertragung der vollziehenden Gewalt und weitgehender Vollmachten auf das Staatskomitee fuer Verteidigung (Sommer 1941) ist die centrale Fuehrung der USSR. auf die Person des Generalissimus Josef Stalin, als Vorsitzender des „Staatskomitee fuer Verteidigung", Vorsitzender des "Centralkomitee der allruss. Kommun. Partei", Oberster Befehlshaber der SU-Wehrmacht und „Volkskommissar fuer Verteidigung" zusammengefasst.

Dem Staatskomitee fuer Verteidigung gehoeren die wichtigsten

NW 38037 DocId:32699413 Page 198

Volkskommissare (Minister) an. Es gibt die Richtlinien fuer die Gesamtkriegfuehrung und stimmt die militaerischen, politischen und wirtschaftlichen Belange aufeinander ab.(Z.B. Abstimmung der politischen und militaerischen Zielsetzung der Operationen, Festsetzung der Dringlichkeit der Ruestungsproduktion, Umfang der Einziehungen).

Das „Staatskomitee fuer Verteidigung" setzt sich aus folgenden Persoenlichkeiten zusammen:

| | |
|---|---|
| Vorsitzender: | Generalissimus Stalin |
| 1.Stellvertr. | Molotow (Volkskom. f. Ausw.Angelegenh.) |
| 2. " | Woroschilow (Stellvertr.Stalins im Centr.-Komitee d.allruss.kommun.Partei) |
| Mitglieder: | Wossnessenskij (Stellvertr.Stalins als Vors. des Rates d. Volkskom.) |
| | Berija (Volkskom.f.Inneres) |
| | Mikojan (Volkskom.f.Aussenhandel und Schwerindustrie) |
| | Kaganowitsch (Volkskom.f.Verkehrswesen) |
| | Malenkow (Polit.Buero) |
| | Chef des "Hauptquartier" (bis Ende 1944 Marschall Shukow) |
| | Armeegeneral Bulganin (Stellvertr.Volkskom. fuer Verteidigung) |

Als beratende Organe sind dem Staatskomitee fuer Verteidigung angeschlossen:

a) Der "Wirtschaftsrat", ein aus bedeutenden Persoenlichkeiten der Wirtschaft zusammengesetzter Ausschuss, der nach den grundlegenden Entscheidungen des Staatskom.f.Vert. die Richtlinien fuer die wirtschaftl. Kriegfuehrung im einzelnen festlegt. (z.B. Rohstoffverteilung u.s.w.)

b) Das "Hauptquartier" fuer die militaerische Kriegfuehrung.

NW 38037 DocId:32699413 Page 199

2.) Militaerische Spitzengliederung. (Vergl. Anlage 1)

Die Wehrmacht der USSR. gliedert sich in

die Rote Armee und

die SU-Kriegsmarine.

Die Fliegertruppe bildet einen Bestandteil der Roten Armee bzw. der Kriegsmarine.

Oberstes Fuehrungsorgan der SU-Wehrmacht ist das "Hauptquartier" mit dem eng angeschlossenen "Generalstab der R.A."

An der Spitze des "Hauptquartier" steht Generalissimus Stalin als Oberster Befehlshaber der SU-Wehrmacht.

Hauptquartier und Generalstab der R.A. wurden im Sommer 1941 aus dem "Volkskommissariat fuer Verteidigung" herausgenommen und als Fuehrungsorgan der Gesamt-Wehrmacht eingesetzt.

a) Das "Hauptquartier" stellt den obersten Kriegsrat der Wehrmacht dar. Es prueft und beschliesst die grossen Linien der militaerischen Kriegfuehrung nach den Vorschlaegen des Generalstabes der R.A. und entscheidet alle grundsaetzlichen Fragen der Organisation und Ausbildung.

Dem "Hauptquartier" gehoeren folgende militaerische Mitarbeiter Stalins und Vertreter der Hauptwaffengattungen an: (Stand Ende 1944)

Chef des "Hauptquartier" - z.Z.unbekannt ( Marschall d.SU Shukow bis zu seiner Verwend. als OB der 1.Weissruss.Front)

Mitglieder: - Marschall Wassiljewskij (in seiner fruehreren Stellung als Chef des Generalstabes d.R.A.)

NW 38037 DocId:32699413 Page 200

Armeegenéral Antonow (Chef des Generalstabes der R.A.)
Marschall Woroschilow
Marschall Timoschenko
Admiral Kuznezow (OB der Kriegsmarine)
Grossmarschall d.Fliegertr. Nowikow
" d.Artillerie Woronow
Marschall d.Panzer-Tr. Fedorenko
" d.Pion.-Tr. Worobjew
Armeegeneral Chrulew (Chef fuer Versorgung)
Generaloberst Tscherbakow (Chef d.Pol.H.V.)

b) Der "Generalstab der Roten Armee" (Generalnyj stab krassnoj armii) -Gliederung siehe Anlage 2 -, dem Hauptquartier eng angliedert, arbeitet die Operationsplaene aus und setzt sie auf Grund der durch das Hauptquartier festgelegten Richtlinien in Befehle um. Im Generalstab der R.A. werden ferner die gesamten Ergebnisse der Feindaufklaerung sowie die Kampferfahrungen der Truppe ausgewertet. Durch Herausgabe von Gefechtsvorschriften und Erfahrungsberichten nimmt der Generalstab entscheidenden Einfluss auf die Ausbildung der Roten Armee.

Chef des Generalstabes der Roten Armee ist Armeegeneral Antonow, der Nachfolger des Marschalls Wassiljewskij, Stellvertreter Gen.-Oberst Slavin.

c) "Volkskommissariat fuer Verteidigung"

Waehrend "Hauptquartier" und "Generalstab der R.A." die Fuehrungsaufgaben fuer die rassische Wehrmacht wahrnehmen, umfasst das "Volkskommissariat fuer Verteidigung" als Spitzenbehoerde der Roten Armee (eine Art Kriegsministerium) die Fachabteilungen der

NW 38037 DocId:32699413 Page 201

einzelnen Dienstzweige und Waffengattungen. Die Aufgaben der einzelnen "Haupt-Verwaltungen" sind aus ihrer Bezeichnung ersichtlich (vergl. Anlage 1).

Auch innerhalb dieser Behoerde nimmt Stalin als"Volkskom. fuer Verteidigung" zentralen Einfluss auf die Organisation, Ausbildung und Bewaffnung. Als "Stellvertr.Volkskom.f.Vert." sind der Chef des Hauptquartiers und der Chef des Generalstabes bestellt, wodurch der Einfluss dieses Fuehrungsorgans nochmals unterstrichen wird.

Das "Volkskommissariat fuer Marine"umfasst dagegen in dem "Haupt-Marine-Stab" zugleich das Fuehrungsorgan der Seekriegsleitung.

3.) Fuehrungsstaebe der Roten Armee.

a) Einstufung und Gliederung.

Zwischen "Hauptquartier" (Generalstab d.R.A.) und Kaempfender Truppe (Schuetzen-Divisionen und schnelle Korps) sind in der Roten Armee folgende Fuehrungsstaebe eingeschaltet:

aa) Frontoberkommando (glawnoje kommandowanije fronta)

Es entspricht nach Einstufung und Aufgabenbereich dem Oberkommando einer Heeresgruppe. Dem Frontoberkommando sind durchschnittlich 4-5 Armeen unterstellt. Die Gesamtstaerke der gefuehrten Verbaende betraegt etwa 55o - 65o ooo Mann einschliesslich Fliegertruppe. Im Schwerpunkt erhoehte sich die Zahl der unterstellten Armeen gelegentlich bis auf lo.

bb) Armeeoberkommando (kommandowanije armii)

Die Fuehrungsaufgaben entsprechen denen westeuropaeischer

Heere, waehrend die Gesamtstaerke bei durchschnittlich 3-4 unterstellten Korps mit etwa 12o - 15o ooo Mann geringer anzunehmen ist.

cc) Generalkommando eines Schuetzen-Korps (kommandowanije strelkowago korpussa)

Waehrend mechanisierte, Panzer-, Kavallerie- und Artillerie-Korps der Roten Armee in ihrer Zusammensetzung bleibende Verbaende bilden, sind die Generalkommandos der Schtz.-Korps als reine Fuehrungsstaebe fuer durchschnittlich 3-4, je nach Entwicklung der Lage wechselnde Schtz.-Divisionen eingesetzt. Sie haben ausser Ueberwachung der Munitionierung keine Versorgungsaufgaben.

Die sowjetrussischen Fuehrungsstaebe gliedern sich in 2 meist auch räumlich getrennt eingesetzte Staffeln.

Die 1.Staffel umfasst den"Stab" (schtab) und die Abteilungen der einzelnen Waffenvorgesetzten, waehrend die 2.Staffel im wesentlichen die Versorgungsdienste einschliesst.

Innerhalb der 1.Staffel sind die Unterabteilungen mit reinen Fuehrungsaufgaben im "Stab" zusammengefasst.

Die Waffenvorgesetzten sind nicht in die Staebe eingegliedert, sondern unterstehen dem Truppenfuehrer unmittelbar bei fachlichem Weisungsrecht durch die entsprechenden Waffenvorgesetzten der uebergeordneten Kommandobehoerde.

Dem Oberbefehlhaber einer Front und Armee steht der "Kriegsrat" (wojennyi ssowjet) als beratendes Organ zur Seite. Er setzt sich aus 4 Personen (darunter meist 1 Waffenvorges.) zusammen. Vorsitzender ist der Truppenfuehrer.

---

NW 38037 DocId:32699413 Page 203

Eine schematische Darstellung der Grundgliederung der Fuehrungsstaebe der Roten Armee enthaelt Anlage 3.

b) Personelle Besetzung.

Die Leiter der einzelnen Unterabteilungen werden in der Regel als "Chef"(natschalnik) bezeichnet, waehrend die wichtigsten Waffenvorgesetzten im Hinblick auf die fallweise centrale Fuehrung ihrer Waffe im Kampf seit 1943 die Bezeichnung "Befehlhaber"(komandojuschtschij) fuehren.

Die den Chefs oder Befehlhabern unterstellten Sachbearbeiter tragen je nach Bedeutung die Bezeichnung "Stellvertreter" (samestitelj) oder "Gehilfen"(pomoschtschnik).

1.Stellvertreter des Truppenfuehrers ist der "Chef des Stabes". Alle "Chefs" oder "Befehlshaber" koennen fachliche Einzelanordnungen selbstaendig herausgeben.

Alle Fuehrungsstaebe der Roten Armee weisen eine besonders hohe Offizierstaerke, dagegen ein geringes Mannschafts-Soll auf, da selbst unwichtige Nebenaufgaben durch Offiziere wahrgenommen werden.

Die geforderte Besetzung mit voll ausgebildeten Generalstabsoffizieren wurde bis Kriegsende nur etwa zur Haelfte erreicht. (Zu spaetes Anlaufen der langwaehrenden Generalstabsausbildung.)

c) Truppen der Fuehrungsstaebe.

Die Zuteilung unmittelbar unterstellter Truppen ist sehr verschieden. Hierbei koennen unterschieden werden:

NW 38037 DocId:32699413 Page 204

Stabstruppen,(Sicherungs- und Wirtschaftseinheiten)
Nachrichtentruppen,
Feldersatzeinheiten,
Versorgungstruppen,
Unmittelbar unterstellte Heerestruppen (Artillerie, Granatwerfer, Flak usw.)

Organisch sind hiervon meist die Stabs- und Nachrichtentruppen, Feldersatzeinheiten und Teile der Versorgungstruppen unterstellt.

( Bemerkungen zur militaerischen Spitzengliederung:

Die Stellung des "Hauptquartier" und des "Generalstabes der Roten Armee" als Fuehrungsorgan der Gesamt-Wehrmacht wird durch die Berufung des Volkskom.fuer Marine, Admiral Kuznezow, als Mitglied des "Hauptquartier" ersichtlich.

Die Einstufung des "Generalstabes d.R.A." als planende und ausfuehrende Stelle des obersten Fuehrungsorgans wird durch den Einsatz des jeweiligen Chefs des Gen.-Stabes als 1.Stellv. des Chefs des "Hauptquartiers" beleuchtet.

Dass der Generalstab der R.A. nicht mehr ein Bestandteil des "Volkskommissariats fuer Verteidigung" ist, kommt durch Abstellung besonderer Verbindungskommandos der fuehrungswichtigen "Haupt-Verwaltungen" (z.B. der H.V.f.Nachrichtenwesen) wie auch durch die Tatsache zum Ausdruck, dass Operationsbefehle an die Fronten und grundlegende Gefechtsvorschriften vom Chef des Generalstabes der R.A. unterzeichnet sind. )
